DAVID HARTON

Full-Stack Developer | Node.js & React.js

Profile

I am a dedicated and innovative web developer with a passion for crafting high-impact solutions that drive business success. As a Software Developer, I thrive on turning complex challenges into seamless, user-friendly experiences.

Work Experience

PREZENT

-
09/2024

Full-Stack Developer | Node.js & React.js

Magic Salon

- Developed an internal application for employees, offering a centralized platform to access all relevant activity information.
- Implemented a feature for the finance department to efficiently complete and edit employee documents.
- Engineered a mobile application utilizing web components, designed for beauty salon employees and managers.
- Implemented core features including payroll visualization and a comprehensive two-way feedback system between employees and customers
- Designed and enforced strict role-based access control (RBAC) to provide distinct user experiences and permissions for Employee and Manager roles.
- Enabled employees to view personal payroll, access customer feedback, and submit feedback for customers.
- Provided managers with administrative views, including access to their employees' profiles and feedback history.
